Abstract Submission

Programme

Eight abstract submissions have been chosen for the two Early Career Scientist Symposia on the basis of an evaluation process by the Scientific Programme Committee. We thank all other abstract authors for their efforts.

ECSAS-01 | Early Career Scientist Symposium

9 May 2025, 15:00 – 16:30, Club A

Chairs: Tobias Banaschewski, Germany; Sven Bölte, Sweden

001 Working to close the academic achievement gap in young children with ADHD Jamie Spiegel, USA

Info

Registration

P. Graziano

002 Emotional dysregulation and suicidal spectrum behaviors in adults with ADHD

Amalie Austgulen, Norway

A. Høberg, A. J. Lundervold, T. A. Hegvik, J. Haavik

003 The impact of increased ADHD prescribing on real-world outcomes: A Swedish self-controlled case series study Lin Li, Sweden

D. Coghill, A. Sjölander, H. Yao, L. Zhang, R. K.-Halkola, I. Brikell, P. Lichtenstein, B. M. D'Onofrio, H. Larsson, Z. Chang

004 From focus to pressure: Exploring essential hypertension risk in Israeli children with ADHD May Polukst, Israel

E. Merzon, S. Ashkenazi, E. Grossman, A. Golan-Cohen, S. Vinker, A. Israel

ECSAS-02 | Early Career Scientist Symposium

10 May 2025, 15:00 – 16:30, Club B

Early Career Scientist Award Symposium dedicated to Joseph Biederman (†)

Chairs: Stephen Faraone, USA; Luis Augusto Rohde, Brazil

001 ADHD genetic risk and dementia in older adults: Findings from the Alzheimer's Disease Sequencing Project Douglas Teixeira Leffa, USA

L. Amaral, B. Bellaver, G. Povala, P. Lukasewicz Ferreira, G. Negrini, L. A. Rohde, B. Molina, D. Archer, T. Pascoal

002 Prenatal exposure to medication for ADHD and risk of neurodevelopmental disorders: A multinational cohort study Claudia Bruno, Australia

C. Cesta, V. Hjellvik, K. Furu, M.-H. Bjørk, Ø. Karlstad, C. Srinivas, M. Nørgaard, J. Reutfors, H. Zoega, J. Cohen

003 Intervention efficacy targeting quality of work life in adults living with ADHD: A randomized controlled trial Chloe Voyer, Canada

M. Corbière, P. Villotti, A. Stamate, I. Gold, G. Sauvé

004 Neurodiversity and financial decision-making: ADHD traits in stock trading Max Witry, Germany

M. Schulze, M. Kölle, A. Philipsen

We are pleased to invite submissions for the prestigious Early Career Scientist Awards to be presented at the upcoming World Congress on ADHD in Prague, 8-11 May 2025.

Two awards will be given for the best presentations in recognition of outstanding research:

- The Joseph Sergeant Award: This award will go to the best presentation from an early-career scientist holding a PhD or an MD degree.
- The Joseph Biederman Award: This award will go to the best presentation from an early-career scientist holding a PhD or an MD degree.

Eligibility:

- Abstract authors need to register for the congress before submitting an abstract.
- Applicants must be 35 years old or younger at the time of submission. A respective proof needs to be provided during the submission process.
- Submissions are open to researchers who have completed their PhD or MD degree.
- Abstracts which are not selected for presentation in the Early Career Scientist Awards Symposium will be presented during the Guided Poster Tour Session.

Selection Process:

From the submitted abstracts, the Scientific Programme Committee will select eight abstracts, who will be invited to give a lecture in two Early Career Scientist Awards Symposia. Each symposium comprises four 20-minute lectures and is chaired by recognized experts for the featured topic, who will then select the best presentation in each case. Awardees will receive a monetary grant worth EUR 1.000 and an award certificate. All other pre-selected abstracts will receive EUR 300.
